

# B-MAX

Arrow's kart for Rotax FR125 Max classes

# AXS | B-MAX

- > CIK/FIA homologated chassis
- > 32mm diameter stress relieved chrome moly chassis tubing
- > 104cm wheelbase
- > 50mm axle supported by three bearings
- > Arrow's unique full-height one-piece machined billet alloy rear axle bearing flanges
- > Unique Arrow cam-adjusting rear axle ride height system
- > Radially ventilated 18mm wide rear brake disc
- > Black anodised machined billet alloy four-spot brake caliper incorporating air-cooled pistons mounted directly to bearing flange
- > Black anodised machined billet alloy brake master cylinder
- > Carbon fibre laminate floortray
- > Split front axle beam with Arrow's unique adjustable machined billet alloy chassis clamp
- > Braided stainless steel brake lines
- > Machined billet alloy sprocket hub and brake disc hub
- > 90mm long machined billet alloy rear wheel hubs
- > Arrow's unique self-centering seat washers
- > High tensile steel front stub axles
- > 10mm precision ground king-pin bolts
- > Adjustable camber/caster and front ride height
- > Arrow's unique self-centering king-pin spacer
- > Adjustable Ackerman
- > Machined alloy steering rods
- > Aluminium components anodised gunmetal
- > Left and right hand seat stays
- > 9-litre removable fuel tank
- > Arrow embroidered black-spoked flat top suede steering wheel with 'carbon-fibre-look' top
- > Unique Arrow CIK/FIA homologated bodywork in 'Arrow Blue'
- > Dynamic Arrow graphics kit
- > Arrow one-piece silver/black machined alloy 3-spoke wheels: Front 120mm (4.7") wide x 5" diameter; Rear 205mm (8") wide x 5" diameter
- > Rotax Max mounting kit and unique Arrow vibration-reducing exhaust mounts

# Features...

Split front axle beam with adjustable machined billet alloy chassis clamp

Machined billet alloy brake master cylinder anodised black

Arrow black-spoked flat top suede steering wheel with carbon-fibre-look top

Unique Arrow cam-adjusting rear axle ride height system. Machined billet alloy 4-spot brake caliper mounted directly to bearing flange.

Adjustable camber/caster, Ackerman and front ride height

Arrow silver/black one-piece machined alloy three-spoke wheels

Arrow's unique self-centering seat washers

Unique full-height one-piece machined billet alloy bearing flanges
